

New Yorkers can't afford the 5th cut in library funding in 2 years!

- ✧ **Today's hard-hit families, seniors and the unemployed are using their public libraries more than ever before.**
- ✧ **Another cut in library funding means cuts in staff, services or hours of operation, and new fees that will cost local taxpayers. That's not what New Yorkers need today.**
- ✧ **Stand up for libraries starting today! Don't let Governor Paterson push back library funding to the 1990s.**

Enough is enough: No more library cuts!
